IRIS RETHINKING IDENTIFICATION

IRIS offers a wide variety of lanyards options because we know that every customers needs are different. We also know that lanyards are used for several different reasons. So whether you are using one to display a badge or promote your brand name at the biggest concert in town, or to add more security in your workplace, IRIS has you covered.

Our **Dye Sublimated Lanyards** can't be beat. With their silky smooth texture and vibrant color options, they're sure to be a crowd pleaser. What's the process you ask? We use a heat transfer technique with our hi-def fabric. We offer Pantone color matching (up to 6 spot colors) or 4-color process. Dye Sublimated Lanyards are available in 3/8", 3/4", 1/2", and 1" fabric widths.

Our **Screen Printed Lanyards** are another option to consider. They are great for simple, static designs and text. They have a raised texture once the ink is applied to the fabric. There is no minimum required to order these lanyards. They are available in 3/8" and 3/4" widths.

Our **Custom Unprinted Lanyards** are available in 3/8" and 3/4" widths. These are essentially the blank canvases of our Screen Printed Lanyards prior to the ink being applied.

All of our lanyards come with a breakaway option along with a multitude of attachments to choose from!

Kustom Kord Lanyards are a completely different look. These round kord (yes, we spell kord with a k) options offer a unique style of lanyard. They have a rubber safety breakaway feature, a 3/4" or 1" round slider disc for customization and a black plastic hook. Our **Kustom Kord Plus** offers the same features, but steps it up a notch with different attachment options and a side release buckle.

Credentials are the perfect pairing for any of our lanyards options. If interested, keep in mind that we can customize your lanyards and credentials to match! Barcodes, QR codes, sequential names and numbers are all options to add to credentials as well!

Have a question that we didn't answer?
