Interested in making your building more secure? We have the product for you. Badge Backers are a very effective security tool. Designed in both horizontal and vertical formats, Badge Backers will compliment whatever identification card you are currently using.

Badge Backers can be printed on both laminated Teslin or unlaminated Revlar. This product acts as a role recognition system for highly populated areas.

Badge Backers clearly display staff members names and titles. They are also used for security purposes to identify visitors from a distance. Not only are they customized by name, but you can choose to order in bulk with different colors, titles or levels of security.

Contact your IRIS sales representative for samples and pricing. Call 610.944.8588 or visit our website www.irisltd.com to chat with a representative today.

BADGE BACKERS ARE A GREAT PRODUCT FOR THE FOLLOWING REASONS:

- They enforce instant role recognition in high security settings
- They are durable
- Available in horizontal or vertical formats
- Slotted for easy attachment to lanyards and badge reels
- Custom names, titles, and sequential numbers can be added
- Single or full color printing available

Adding important codes to the front or back of your Badge Backer is both convenient and easy to do. There is no limit to what you can add to your Badge Backer.
